Center Quote: It's a choice The Jude Thaddeus Program does not advocate belief in the disease of addiction as taught in drug rehab, alcohol addiction treatment or alcoholism treatment whether they are secular or Christian drug treatment centers. The Jude Thaddeus Program teaches our guests to take personal responsibility for their choices rather than making excuses for choices that result in poor behavior which is the cornerstone to rebuilding their life. Drug and alcohol rehab centers teach that a disease by its very nature is out of the person's control. This is simply not the case with substance abuse. Actually, name a disease that if the abuser does not have money today to buy alcohol or drugs, they do not have symptoms! Substance abusers make the choice to abuse alcohol and drugs. The millions who stopped abusing drugs chose to stop. Choice is a behavior, not a disease.
