Personal Information:

About Me: Ridgeview Institute, located in metropolitan Atlanta, Georgia, is a private, not-for-profit provider of psychiatric and addiction treatment. Our services include inpatient, partial hospitalization, and intensive outpatient treatment options for youth, young adults, adults, and older adults. We offer specialty services for recovering professionals, eating disorders, young adult addiction, youth addiction, and older adults. We also offer on campus recovery residences for patients currently participating in our partial hospitalization treatment programs.

Facility Description: **VISION STATEMENT** Our vision is to be a premier behavioral health provider, committed to mental health advocacy and education, and nationally recognized for our quality treatment and specialty services. **MISSION STATEMENT** Our Mission is to provide a comprehensive continuum of mental health and addiction treatment services based upon a commitment to excellence and quality care to patients and families. We continuously strive to assess and improve our performance as a nonprofit healthcare organization based upon the Ridgeview Tradition Quality of Care, Quality of Service, Quality of Workplace.

Treatment Philosophy Statement: Our addiction programs are based on the belief that addiction is a chronic, progressive, primary illness affecting the physical, emotional, and spiritual well-being of the individual and family. It has been our experience that adults with addictive disorders are seldom addicted to one substance or behavior. Ridgeviews program combines five levels of treatment, a broad spectrum of specialty groups and services, and the 12-Step programs of recovery. This unique approach addresses addictive disease and its associated problems in a comprehensive and individualized manner. The goal of treatment is to help patients learn how to cope with life free from addiction.
